

Connecting to the MetaAllocator dApp with Ledger

Before you start make sure you have imported the correct Ledger to your Metamask. Detailed instructions here: <https://support.ledger.com/article/4404366864657-zd>. Once you are done, proceed

1

Choose Connect Wallet

contracts-admin.allocator.tech/allocator/314/0xB6F5d279AEad97dFA45209F3E539...

Metaallocator dApp^{BETA}

Connect Wallet

Home / Allocators / 0xB6...C21d

Allocator

0xB6F5d279AEad97dFA45209F3E53969c2EF43C21d

Allocator Datacap:

200PiB

Allocators List

No allocators found.

Manage Allocator Allowance

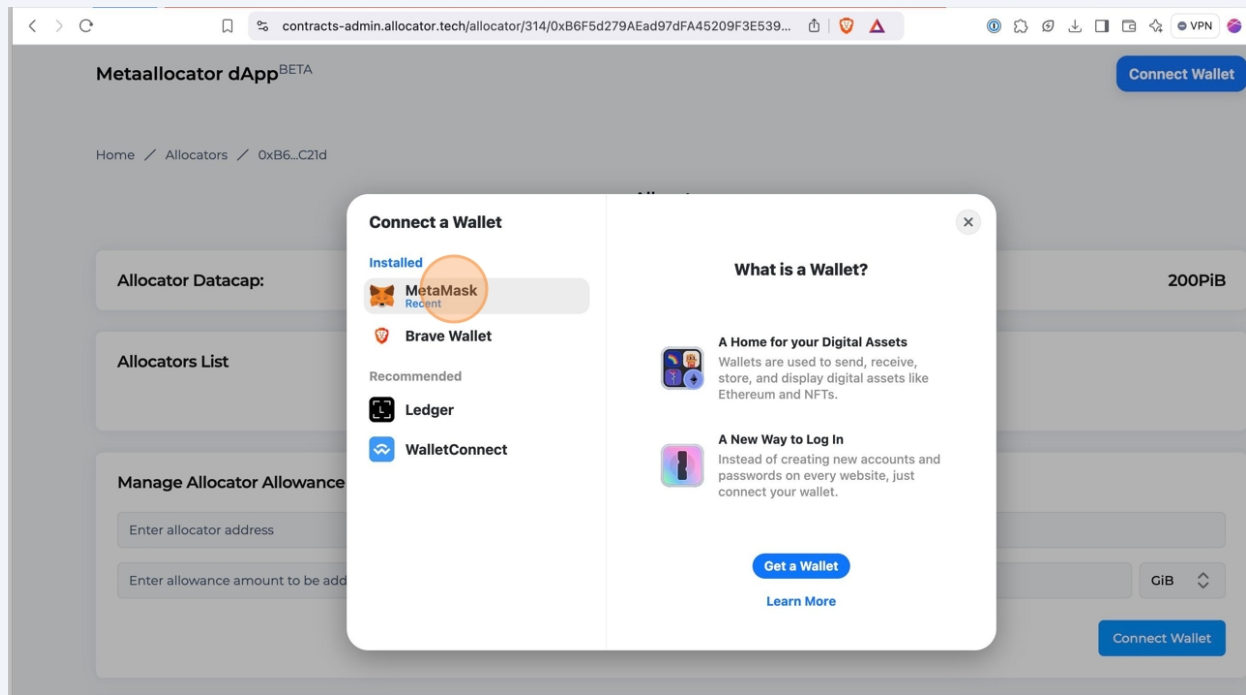

Enter allocator address

Enter allowance amount to be added

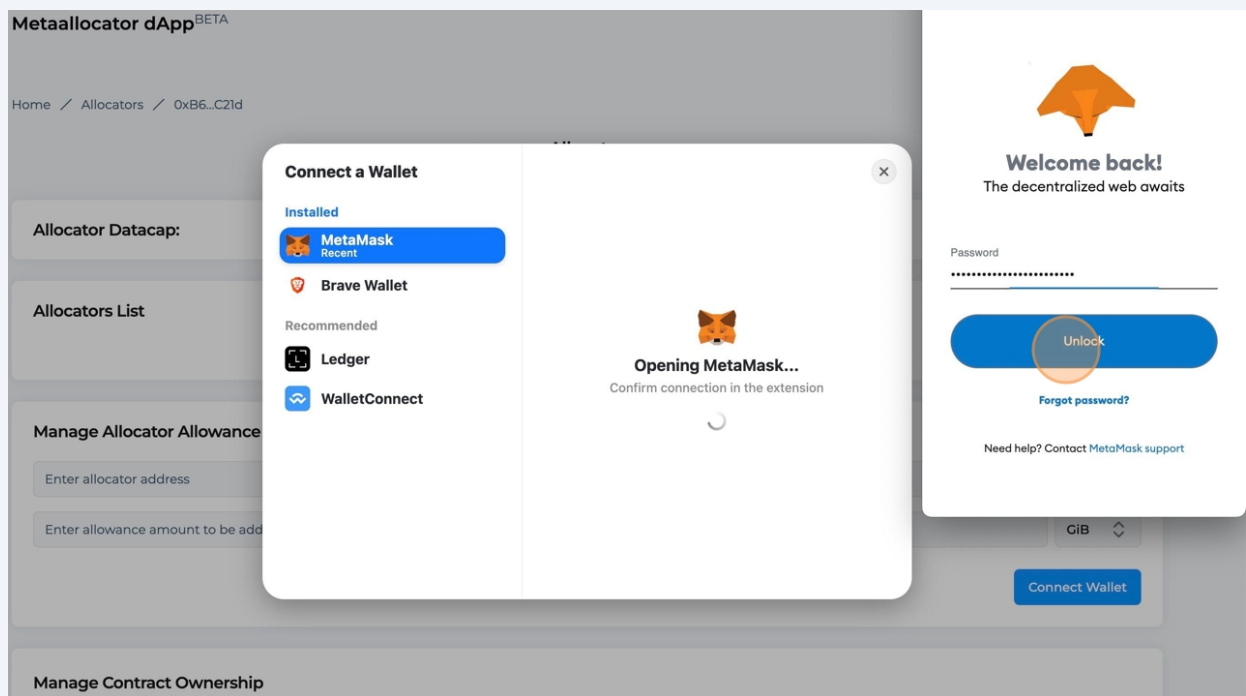

GiB

Connect Wallet

2 Choose Metamask

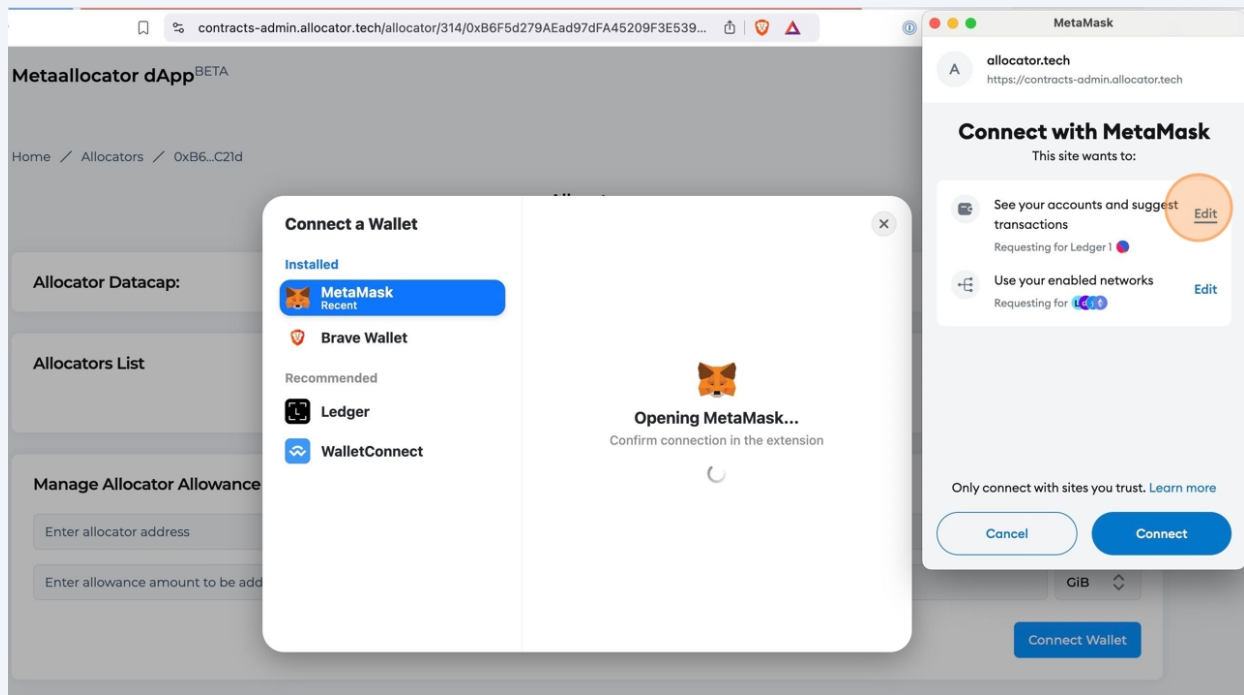

3 Log into your Metamask

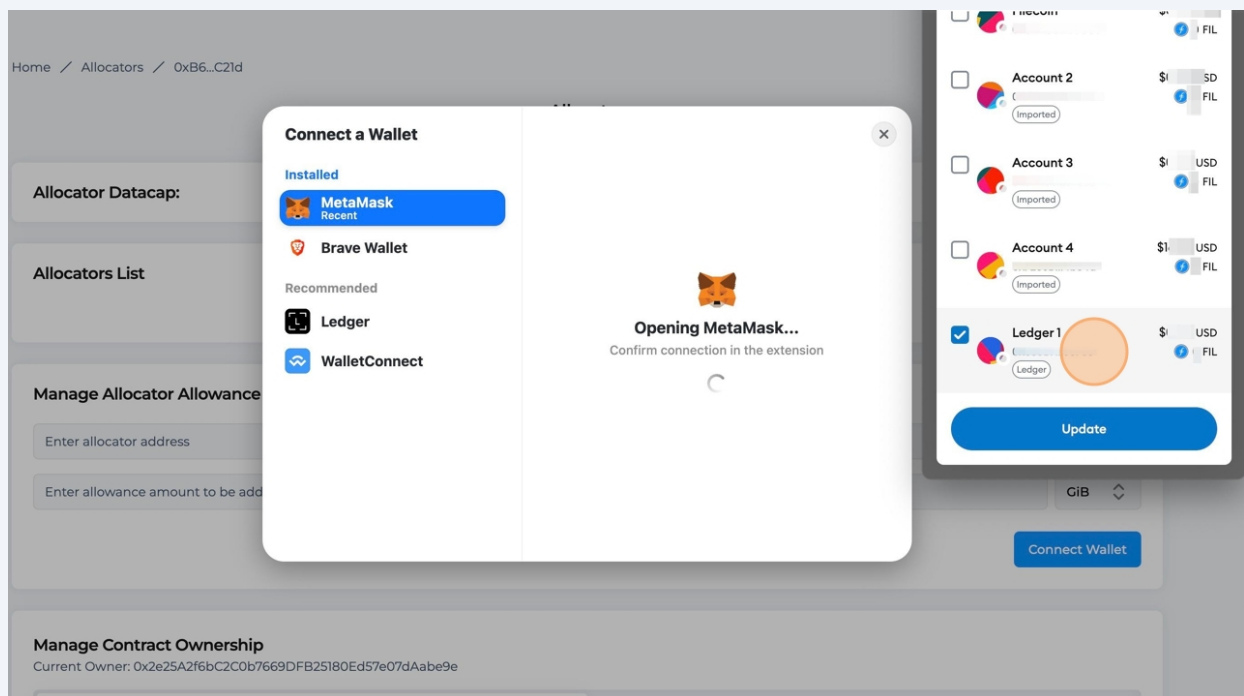

4

Ensure you are connecting to your ledger. Choose Edit to see the list of your wallets in the Metamask

5

Scroll down to choose Ledger

6 Click connect and you are done!
